## **Our Portfolio**

We have successfully completed more than 200+ projects within 1 year and are predicted to experience an increase in the 1st & 2nd quarter of 2024. This data was obtained based on the results of calculating the number of incoming offers and looking at market conditions as well as several products whose certification period is about to end.

39% of our clients are companies from abroad and we have good cooperation in the field of certification with clients both domestic and foreign. We try our best to ensure zero mistakes in completing various projects, by maximizing daily internal evaluations so that all projects can be carried out optimally and can be completed within the agreed deadline.
